PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | June 2025 -Aug 2025

Mecatredz Software & Innovation Pvt. Ltd.

- Developed web applications using Java, JSP, and MySQL for backend functionality.
- Built responsive and interactive frontend interfaces with HTML, CSS,JavaScript, Bootstrap, and jQuery.
- Implemented database operations, optimized queries, and ensured seamless data flow.
- Assisted in debugging and enhancing existing code to improve performance and user experience.

SKILLS

Frontend

Backend

Database

Cloud & Tools

Others

HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap

PHP, Laravel, Python, Java, Node.js, Express.js

MySQL, MongoDB, PostgreSQL

Git, OCI, AWS, REST APIs

Problem Solving, Debugging, Version Control, Team Collaboration

PROJECTS

Golf Heroes - Full Stack Golf Competition Platform

- Engineered a full stack golf competition platform using React, Laravel, PostgreSQL, and Supabase with secure authentication, REST APIs, and role-based admin access.
- Developed dynamic prize pool, charity contribution, score management, and winner verification workflows with real-time data synchronization between frontend and backend systems.
- Deployed and optimized production architecture using Vercel, Render, Docker, and Laravel API integrations while resolving CORS, authentication, database, and cloud deployment issues.
- Project Link : golferoes-project.vercel.app

GridSense AI — AI-Powered Smart Grid Monitoring Platform

- Built an AI-powered smart grid monitoring platform using React, FastAPI, SQLite, and Gemini AI for real-time transformer analytics and complaint intelligence.
- Engineered autonomous AI workflows using APScheduler and Gemini API for predictive maintenance, outage forecasting, and transformer risk analysis.
- Developed an interactive operational dashboard with live transformer mapping, AI-generated insights, and real-time frontend-backend synchronization.
- Project Link : gridsense-lake.vercel.app

AI Powered Resume Analyzer

- Built an AI-powered resume analyzer using React, FastAPI, and Gemini AI for ATS scoring, skill extraction, and resume evaluation.
- Implemented AI-based resume parsing, keyword analysis, and intelligent feedback generation with real-time frontend-backend integration.
- Project Link : geminiixe.vercel.app

CERTIFICATIONS

Full Stack Developer Internship Certificate – Mecatreds Software & Innovation Pvt. Ltd. | 2025

- Recognized for developing full-stack web applications using Java, JSP, MySQL, Bootstrap & jQuery

Oracle Cloud Infrastructure (OCI) 2025 Certified Foundations Associate – Oracle | Sep 2025

- Covered cloud concepts, OCI core services, and cloud security fundamentals.

EDUCATION

Government Polytechnic Shahjahanpur | Aug 2023- Aug 2026

Diploma in Computer Science & Engineering

Kendriya Vidyalaya No. 1 Cantt Shahjahanpur | 2022

10th C.B.S.E, 89%
